(3) "Investigation" means the inquiry, analysis, audit, or other pursuit of information by the department, with respect to a complaint or other information before the department, that is carried out for the purpose of determining:

(a) whether a person has violated a provision of law justifying discipline against the person;

(b) the status of compliance with a stipulation or order of the department;

(c) whether a license should be granted, denied, or conditionally issued; or

(d) whether the department should seek an injunction.

(4) "License" means permission in the form of a license, permit, endorsement, certificate, recognition, or registration granted by the state of Montana to engage in a business activity or practice at a specific level in a profession or occupation governed by:

Chapter 502 in definitions of license and profession in (a) after reference to chapter 72 inserted reference to chapter 73; and made minor changes in style. Amendment effective October 1, 2007.

37-1-402. Unprofessional conduct -- complaint -- investigation -- immunity. (1) A person, government, or private entity may submit a written complaint to the department charging a licensee or license applicant with a violation of this part and specifying the grounds for the complaint.

(2) If the department receives a written complaint or otherwise obtains information that a licensee or license applicant may have violated a requirement of this part, the department may investigate to determine whether there is reasonable

cause to believe that the licensee or license applicant has committed the violation.

(3) A person or private entity, but not a government entity, filing a complaint under this section in good faith is immune from suit in a civil action related to the filing or contents of the complaint.

History: En. Sec. 2, Ch. 481, L. 1997.

37-1-403. Notice -- request for hearing. (1) If the department determines that reasonable cause exists supporting the allegation made in a complaint, the department legal staff shall prepare a notice and serve the alleged violator. The notice may be served by certified mail to the current address on file with the department or by other means authorized by the Montana Rules of Civil Procedure.

(2) A licensee or license applicant shall give the department the licensee's or applicant's current address and any change of address within 30 days of the change.

(3) The notice must state that the licensee or license applicant may request a hearing to contest the charge or charges. A request for a hearing must be in writing and must be received in the offices of the department within 20 days after the licensee's receipt of the notice. Failure to request a hearing constitutes a default on the charge or charges, and the department may enter a decision on the basis of the facts available to it.

History: En. Sec. 3, Ch. 481, L. 1997.

37-1-404. Hearing -- adjudicative procedures. The procedures in Title 2, chapter 4, governing adjudicative proceedings before agencies, the Montana Rules of Civil Procedure, and the Montana Rules of Evidence govern a hearing under this part. The department has all the powers and duties granted by Title 2, chapter 4.

History: En. Sec. 4, Ch. 481, L. 1997.

37-1-405. (Temporary) Findings of fact -- order -- report. (1) If the department finds by a preponderance of the evidence, following a hearing or on default, that a violation of this part has occurred, the department shall prepare and serve findings of fact, conclusions of law, and an order as provided in Title 2, chapter 4. If the licensee or license applicant is found not to have violated this part, the department shall prepare and serve an order of dismissal of the charges.

(2) The department may report the issuance of a notice and final order to:

(a) the person or entity who brought to the department's attention information that resulted in the initiation of the proceeding;

(b) appropriate public and private organizations that serve the profession or occupation; and

(c) the public.

37-1-405. (Effective January 1, 2009) Findings of fact -- order -- report. (1) If the department finds by a preponderance of the evidence, following a hearing or on default, that a violation of this part has occurred, the department shall prepare and serve findings of fact, conclusions of law, and an order as provided in Title 2, chapter 4. If the licensee or license applicant is found not to have violated this part, the department shall prepare and serve an order of dismissal of the charges.

(2) (a) The department shall within a reasonable amount of time report to the public the issuance of a summary suspension, a notice under 37-1-403, an accepted stipulation, a hearing examiner's proposed decision, and a final order.

(b) In addition to any other means of notice, the department shall post the required information on a publicly available website.

(c) This subsection (2) may not be construed to require a meeting to be open or records to be disseminated when the demands of individual privacy clearly exceed the merits of public disclosure.

History: En. Sec. 5, Ch. 481, L. 1997; amd. Sec. 5, Ch. 225, L. 2007.

Compiler's Comments

2007 Amendment: Chapter 225 substituted (2) concerning report of suspension for former text that read: "(2) The department may report the issuance of a notice and final order to:

(a) the person or entity who brought to the department's attention information that resulted in the initiation of the proceeding;

(b) appropriate public and private organizations that serve the profession or occupation; and

(c) the public." Amendment effective January 1, 2009.

37-1-406. Sanctions -- stay -- costs -- stipulations. (1) Upon a decision that a licensee or license applicant has violated this part or is unable to practice with reasonable skill and safety due to a physical or mental condition or upon stipulation of the parties as provided in subsection (4), the department may issue an order providing for one or any combination of the following sanctions:

(a) revocation of the license;

(b) suspension of the license for a fixed or indefinite term;

(c) restriction or limitation of the practice;

(d) satisfactory completion of a specific program of remedial education or treatment;

(e) monitoring of the practice by a supervisor approved by the disciplining authority;

(f) censure or reprimand, either public or private;

(g) compliance with conditions of probation for a designated period of time;

(h) payment of a fine not to exceed \$1,000 for each violation;

(i) denial of a license application;

(j) refund of costs and fees billed to and collected from a consumer.

(2) Any fine collected by the department as a result of disciplinary actions must be deposited in the state general fund.

(3) A sanction may be totally or partly stayed by the department. To determine which sanctions are appropriate, the department shall first consider the sanctions that are necessary to protect or compensate the public. Only after the determination has been made may the department consider and include in the order any requirements designed to rehabilitate the licensee or license applicant.

(4) The licensee or license applicant may enter into a stipulated agreement resolving potential or pending charges that includes one or more of the sanctions in this section. The stipulation is an informal disposition for the purposes of 2-4-603.

(5) A licensee shall surrender a suspended or revoked license to the department within 24 hours after receiving notification of the suspension or revocation by mailing the license or delivering it personally to the department.

History: En. Sec. 6, Ch. 481, L. 1997.

History: En. Sec. 7, Ch. 481, L. 1997.

37-1-408. Reinstatement. A licensee whose license has been suspended or revoked under this part may petition the department for reinstatement after an interval set by the department in the order. The department may hold a hearing on the petition and may deny the petition or order reinstatement and impose terms and conditions as provided in 37-1-312. The department may require the successful

completion of an examination as a condition of reinstatement and may treat a licensee whose license has been revoked or suspended as a new applicant for purposes of establishing the requisite qualifications of licensure.

History: En. Sec. 8, Ch. 481, L. 1997.

37-1-409. Enforcement of fine. (1) If payment of a fine is included in an order and timely payment is not made as directed in the order, the department may enforce the order for payment in the district court of the first judicial district.

(2) In a proceeding for enforcement of an order of payment of a fine, the order is conclusive proof of the validity of the order of payment and the terms of payment.

History: En. Sec. 9, Ch. 481, L. 1997.

37-1-410. Unprofessional conduct. (1) The following is unprofessional conduct for a licensee or license applicant in a profession or occupation governed by this chapter:

(a) being convicted, including a conviction following a plea of nolo contendere and regardless of a pending appeal, of a crime relating to or committed during the course of practicing the person's profession or occupation or involving violence, the use or sale of drugs, fraud, deceit, or theft;

(b) permitting, aiding, abetting, or conspiring with a person to violate or circumvent a law relating to licensure or certification;

(c) committing fraud, misrepresentation, deception, or concealment of a material fact in applying for or assisting in securing a license or license renewal or in taking an examination required for licensure;

(d) signing or issuing, in the licensee's professional capacity, a document or statement that the licensee knows or reasonably ought to know contains a false or misleading statement;

(e) making a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;

(f) offering, giving, or promising anything of value or benefit to a federal, state, or local government employee or official for the purpose of influencing the employee or official to circumvent a federal, state, or local law, rule, or ordinance governing the licensee's profession or occupation;

(g) receiving a denial, suspension, revocation, probation, fine, or other license restriction or discipline against a licensee by a state, province, territory, or Indian tribal government or the federal government if the action is not on appeal or under judicial review or has been satisfied.

(h) failing to comply with a term, condition, or limitation of a license by final order of the department;

(i) having a physical or mental disability that renders the licensee or license applicant unable to practice the profession or occupation with reasonable skill and safety;

(j) misappropriating property or funds from a client or workplace or failing to comply with the department's rule regarding the accounting and distribution of a client's property or funds;

(k) interfering with an investigation or disciplinary proceeding by willful misrepresentation of facts, failure to respond to department inquiries regarding a complaint against the licensee or license applicant, or the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action or use of threats or harassment against or inducement to a person to prevent or attempt to prevent a

disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(l) assisting in the unlicensed practice of a profession or occupation or allowing another person or organization to practice or offer to practice the profession or occupation by use of the licensee's license.

(2) For the purposes of Title 37, chapters 72 and 73, and Title 50, chapters 74 and 76, the following additional practices are considered unprofessional conduct:

(a) addiction to or dependency on alcohol, an illegal drug, or a dangerous drug, as defined in Title 50, chapter 32;

(b) use of alcohol, an illegal drug, or a dangerous drug, as defined in Title 50, chapter 32, to the extent that the use impairs the user physically or mentally;

(c) conduct that does not meet generally accepted standards of practice. A certified copy of a judgment against the licensee or license applicant or of a tort judgment in an action involving an act or omission occurring within the scope of practice and the course of the practice is considered conclusive evidence of but is not needed to prove conduct that does not meet generally accepted standards.

History: En. Sec. 10, Ch. 481, L. 1997; amd. Sec. 11, Ch. 502, L. 2007.

Compiler's Comments

2007 Amendment: Chapter 502 in (1) after "applicant" inserted "in a profession or occupation"; inserted (2) providing that for certain occupations, the use of alcohol or drugs and conduct not meeting generally accepted standards are considered unprofessional conduct; and made minor changes in style. Amendment effective October 1, 2007.

37-1-411. Practice without license -- investigation of complaint -- injunction -- penalties. (1) The department may investigate a complaint or other information received concerning practice by an unlicensed person of a profession or occupation governed by this part.

(2) The department may file an action to enjoin a person from practicing, without a license, a profession or occupation governed by this part.

History: En. Sec. 11, Ch. 481, L. 1997; amd. Sec. 5, Ch. 230, L. 1999.

37-1-412. Violation of injunction -- penalty. (1) A person who has been enjoined and who violates an injunction issued pursuant to a proceeding under this part may be held in contempt of court and shall pay a civil penalty, as determined by the court, of not more than \$5,000. Fifty percent of the penalty must be deposited in the general fund of the county in which the injunction is issued, and 50% must be deposited in the state general fund.

(2) A person subject to an injunction for practicing without a license may also be subject to criminal prosecution. In a complaint for an injunction or in an affidavit, information, or indictment alleging that a person has engaged in unlicensed practice, it is sufficient to charge that the person engaged in the unlicensed practice of a licensed profession or occupation on a certain day in a certain county without averring further or more particular facts concerning the violation.

(3) Unless otherwise provided by statute, a person practicing a licensed profession or occupation in this state without complying with the licensing provisions of this title is guilty of a misdemeanor punishable by a fine of not less than \$250 or more than \$1,000, imprisonment in the county jail for not less than 90 days or more than 1 year, or both. Each violation of the provisions of this chapter constitutes a separate offense.

History: En. Sec. 12, Ch. 481, L. 1997; amd. Sec. 6, Ch. 230, L. 1999.

37-1-413. Department authority. For each licensing program regulated by the department under this part, the department is designated as a criminal justice

agency within the meaning of 44-5-103 for the purpose of obtaining confidential criminal justice information regarding licensees and license applicants and regarding possible unlicensed practice.

Uniform Health Care Information

Part Cross-References

Right of privacy guaranteed, Art. II, sec. 10, Mont. Const.

50-16-501. Short title. This part may be cited as the "Uniform Health Care Information Act".

History: En. Sec. 1, Ch. 632, L. 1987.

50-16-502. Legislative findings. The legislature finds that:

(1) health care information is personal and sensitive information that if improperly used or released may do significant harm to a patient's interests in privacy and health care or other interests;

(2) patients need access to their own health care information as a matter of fairness, to enable them to make informed decisions about their health care and to correct inaccurate or incomplete information about themselves;

(3) in order to retain the full trust and confidence of patients, health care providers have an interest in ensuring that health care information is not improperly disclosed and in having clear and certain rules for the disclosure of health care information;

(4) persons other than health care providers obtain, use, and disclose health record information in many different contexts and for many different purposes. It is the public policy of this state that a patient's interest in the proper use and disclosure of the patient's health care information survives even when the information is held by persons other than health care providers.

(5) the movement of patients and their health care information across state lines, access to and exchange of health care information from automated data banks, and the emergence of multistate health care providers creates a compelling need for uniform law, rules, and procedures governing the use and disclosure of health care information.

(6) the enactment of federal health care privacy legislation and the adoption

of rules pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), 42 U.S.C. 1320d, et seq., require health care providers subject to that legislation to provide significant privacy protection for health care information and the provisions of this part are no longer necessary for those health care providers; and

(7) because the provisions of HIPAA do not apply to some health care providers, it is important that these health care providers continue to adhere to this part.

History: En. Sec. 2, Ch. 632, L. 1987; amd. Sec. 6, Ch. 396, L. 2003.

50-16-503. Uniformity of application and construction. This part must be applied and construed to effectuate their general purpose to make uniform the laws with respect to the treatment of health care information among states enacting them.

History: En. Sec. 3, Ch. 632, L. 1987.

50-16-504. Definitions. As used in this part, unless the context indicates otherwise, the following definitions apply:

50-16-527. Patient authorization -- retention -- effective period -- exception -- communication without prior notice for workers' compensation purposes. (1) A health care provider shall retain each authorization or revocation in conjunction with any health care information from which disclosures are made.

(2) Except for authorizations to provide information to third-party health care payors, an authorization may not permit the release of health care information relating to health care that the patient receives more than 6 months after the authorization was signed.

(3) Health care information disclosed under an authorization is otherwise subject to this part. An authorization becomes invalid after the expiration date contained in the authorization, which may not exceed 30 months. If the authorization does not contain an expiration date, it expires 6 months after it is signed.

(4) Notwithstanding subsections (2) and (3), a signed claim for workers' compensation or occupational disease benefits authorizes disclosure to the workers' compensation insurer, as defined in 39-71-116, or to the agent of a workers' compensation insurer by the health care provider. The disclosure authorized by this subsection authorizes the physician or other health care provider to disclose or release only information relevant to the claimant's condition. Health care information relevant to the claimant's condition may include past history of the complaints of or the treatment of a condition that is similar to that presented in the claim, conditions for which benefits are subsequently claimed, other conditions related to the same body part, or conditions that may affect recovery. A release of information related to workers' compensation must be consistent with the provisions of this subsection. Authorization under this section is effective only as long as the claimant is claiming benefits. This subsection may not be construed to restrict the scope of discovery or disclosure of health care information as allowed under the Montana Rules of Civil Procedure, by the workers' compensation court, or as otherwise provided by law.

(5) A signed claim for workers' compensation or occupational disease benefits or a signed release authorizes a workers' compensation insurer, as defined in 39-71-116, or the agent of the workers' compensation insurer to communicate with a physician or other health care provider about relevant health care information, as authorized in subsection (4), by telephone, letter, electronic communication, in person, or by other means, about a claim and to receive from the physician or health

care provider the information authorized in subsection (4) without prior notice to the injured employee, to the employee's authorized representative or agent, or in the case of death, to the employee's personal representative or any person with a right or claim to compensation for the injury or death.

50-16-528. Patient's revocation of authorization for disclosure. A patient may revoke a disclosure authorization to a health care provider at any time unless disclosure is required to effectuate payments for health care that has been provided or other substantial action has been taken in reliance on the authorization. A patient may not maintain an action against the health care provider for disclosures made in good faith reliance on an authorization if the health care provider had no notice of the revocation of the authorization.

History: En. Sec. 8, Ch. 632, L. 1987.

50-16-529. Disclosure without patient's authorization based on need to know. A health care provider may disclose health care information about a patient without the patient's authorization, to the extent a recipient needs to know the information, if the disclosure is:

- (1) to a person who is providing health care to the patient;
- (2) to any other person who requires health care information for health care education; to provide planning, quality assurance, peer review, or administrative, legal, financial, or actuarial services to the health care provider; for assisting the health care provider in the delivery of health care; or to a third-party health care payor who requires health care information and if the health care provider reasonably believes that the person will:
 - (a) not use or disclose the health care information for any other purpose; and
 - (b) take appropriate steps to protect the health care information;
- (3) to any other health care provider who has previously provided health care to the patient, to the extent necessary to provide health care to the patient, unless the patient has instructed the health care provider not to make the disclosure;
- (4) to immediate family members of the patient or any other individual with whom the patient is known to have a close personal relationship, if made in accordance with the laws of the state and good medical or other professional practice, unless the patient has instructed the health care provider not to make the disclosure;
- (5) to a health care provider who is the successor in interest to the health care provider maintaining the health care information;
- (6) for use in a research project that an institutional review board has determined:
 - (a) is of sufficient importance to outweigh the intrusion into the privacy of the patient that would result from the disclosure;
 - (b) is impracticable without the use or disclosure of the health care information in individually identifiable form;
 - (c) contains reasonable safeguards to protect the information from improper disclosure;
 - (d) contains reasonable safeguards to protect against directly or indirectly identifying any patient in any report of the research project; and
 - (e) contains procedures to remove or destroy at the earliest opportunity, consistent with the purposes of the project, information that would enable the patient to be identified, unless an institutional review board authorizes retention of

identifying information for purposes of another research project;

(7) to a person who obtains information for purposes of an audit, if that person agrees in writing to:

(a) remove or destroy, at the earliest opportunity consistent with the purpose of the audit, information that would enable the patient to be identified; and

(b) not disclose the information further, except to accomplish the audit or to report unlawful or improper conduct involving fraud in payment for health care by a health care provider or patient or other unlawful conduct by a health care provider;

(8) to an official of a penal or other custodial institution in which the patient is detained; and

(9) to any contact, as defined in 50-16-1003, if the health care provider reasonably believes that disclosure will avoid or minimize an imminent danger to the health or safety of the contact or any other individual.

50-16-531. Immunity of health care providers pursuant to written authorization -- form required. A health care provider who discloses health care information within the possession of the provider, including health care information from another provider, is immune from any civil cause of action by the patient or the patient's heirs or successors in interest that is based upon delivery to the patient or the patient's designee of health care information concerning the patient that is contained in the health care provider's patient file if the information is disclosed in

accordance with a written authorization using the following language:

"All health care information in your possession, whether generated by you or by any other source, may be released to me or to(named person) for(purpose of the disclosure). (h) the health care information is relevant to a proceeding brought under 50-16-551 through 50-16-553;

(i) the health care information is relevant to a proceeding brought under Title 41, chapter 3;

(k) the health care information is requested pursuant to an investigative subpoena issued under 46-4-301 or a similar federal law.

(2) This part does not authorize the disclosure of health care information by compulsory legal process or discovery in any judicial, legislative, or administrative proceeding in which disclosure is otherwise prohibited by law.

(1) Unless the court for good cause shown determines that the notification should be waived or modified, if health care information is sought under 50-16-535(1)(b), (1)(d), or (1)(e) or in a civil proceeding or investigation under 50-16-535(1)(j), the person seeking discovery or compulsory process shall mail a notice by first-class mail to the patient or the patient's attorney of record of the compulsory process or discovery request at least 10 days before presenting the certificate required under subsection (2) of this section to the health care provider.

(2) Service of compulsory process or discovery requests upon a health care provider must be accompanied by a written certification, signed by the person seeking to obtain health care information or by the person's authorized representative, identifying at least one subsection of 50-16-535 under which compulsory process or discovery is being sought. The certification must also state, in the case of information sought under 50-16-535(1)(b), (1)(d), or (1)(e) or in a civil proceeding under 50-16-535(1)(j), that the requirements of subsection (1) of this section for notice have been met. A person may sign the certification only if the person reasonably believes that the subsection of 50-16-535 identified in the certification provides an appropriate basis for the use of discovery or compulsory process. Unless otherwise ordered by the court, the health care provider shall maintain a copy of the process and the written certification as a permanent part of the patient's health care information.

(3) In response to service of compulsory process or discovery requests, when authorized by law, a health care provider may deny access to the requested health care information. Additionally, a health care provider may deny access to the requested health care information under 50-16-542(1). If access to requested health care information is denied by the health care provider under 50-16-542(1), the health care provider shall submit to the court by affidavit or other reasonable means an explanation of why the health care provider believes the information should be protected from disclosure.

(4) When access to health care information is denied under 50-16-542(1), the court may order disclosure of health care information, with or without restrictions as to its use, as the court considers necessary. In deciding whether to order disclosure, the court shall consider the explanation submitted by the health care provider, the reasons for denying access to health care information set forth in 50-16-542(1), and any arguments presented by interested parties.

(5) A health care provider required to disclose health care information pursuant to compulsory process may charge a reasonable fee, not to exceed the fee provided for in 50-16-540, and may deny examination or copying of the information until the fee is paid.

(6) Production of health care information under 50-16-535 and this section does not in itself constitute a waiver of any privilege, objection, or defense existing under other law or rule of evidence or procedure.

- (d) the health care information is data, as defined in 50-16-201, that is compiled and used solely for utilization review, peer review, medical ethics review, quality assurance, or quality improvement;
- (e) the health care information might contain information protected from disclosure pursuant to 50-15-121 and 50-15-122;

- (a) the patient is committed to a mental health facility; or
- (b) the patient's parents or guardian has not authorized the health care provider to disclose the patient's health care information.

(3) If a health care provider denies a request for examination and copying under this section, the provider, to the extent possible, shall segregate health care

information for which access has been denied under subsection (1) from information for which access cannot be denied and permit the patient to examine or copy the information subject to disclosure.

(4) If a health care provider denies a patient's request for examination and copying, in whole or in part, under subsection (1)(a) or (1)(c), the provider shall permit examination and copying of the record by the patient's spouse, adult child, or parent or guardian or by another health care provider who is providing health care services to the patient for the same condition as the health care provider denying the request. The health care provider denying the request shall inform the patient of the patient's right to select another health care provider under this subsection.

The notice to the department must include the name of the emergency services organization that transported the patient to the health care facility. The department shall, within 24 hours after receiving the notice, notify the designated officer of the emergency services provider who transported the patient.

(3) A designated officer who receives the notification from a health care facility required by 50-16-703(2) or by subsection (1)(c) of this section shall immediately provide the information contained in the notification to the emergency services provider for whom the report of exposure was filed or who was exposed to a patient with an airborne infectious disease.

(1) After a patient is transported to a health care facility and if a physician determines that the transported patient has an infectious disease, the physician shall inform the infectious disease control officer of the health care facility of the determination within 24 hours after the determination is made.

(2) If it is determined that the infectious disease is airborne or a report of exposure was filed concerning the patient under 50-16-702, the health care facility shall provide the notification required by subsection (3) orally within 48 hours after the time of diagnosis and in writing within 72 hours after diagnosis to the designated officer of each emergency services organization known to the health care facility to have provided emergency services to the patient prior to or during transportation to the health care facility.

(3) The notification must state the disease to which the emergency services

provider was exposed, the appropriate medical precautions and treatment that the exposed person needs to take, the date on which the patient was transported to the health care facility, and the time that the patient arrived at the facility.

50-16-704. Confidentiality -- penalty for violation -- immunity from liability. (1) The name of the person diagnosed as having an infectious disease may not be released to anyone, including the emergency services provider who was exposed, nor may the name of the emergency services provider who was exposed be released to anyone other than the emergency services provider, except as required by this part, by department rule concerning reporting of communicable disease, or as allowed by Title 50, chapter 16, part 5.

(2) A person who violates the provisions of this section is guilty of a misdemeanor and upon conviction shall be fined not less than \$500 or more than \$10,000, be imprisoned in the county jail not less than 3 months or more than 1 year, or both.

(3) A health care facility, a representative of a health care facility, a physician, or the designated officer of an emergency services provider's organization may not be held jointly or severally liable for providing the notification required by 50-16-703 when the notification is made in good faith or for failing to provide the notification if good faith attempts to contact an exposed person of exposure are unsuccessful.

Part 8

Health Care Information Privacy Requirements for Providers Subject to HIPAA

50-16-801. Legislative findings. The legislature finds that:

(1) health care information is personal and sensitive information that if improperly used or released may do significant harm to a patient's interests in privacy and health care or other interests;

(2) the enactment of federal health care privacy legislation and the adoption of rules pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPAA), 42 U.S.C. 1320d, et seq., provide significant privacy protection for health care information with respect to health care providers subject to HIPAA;

(3) for health care providers subject to the health care information privacy protections of HIPAA, the applicability of the provisions of Title 50, chapter 16, part 5, relating to health care privacy is unnecessary and may result in significant practical difficulties;

(4) it is in the best interest of the citizens of Montana to have certain requirements, with respect to the use or release of health care information by health care providers, that are more restrictive than or additional to the health care privacy protections of HIPAA.

(2) Service of compulsory process or discovery requests upon a health care provider must be accompanied by a written certification, signed by the person seeking to obtain health care information or by the person's authorized representative, identifying at least one subsection of 50-16-811 under which compulsory process or discovery is being sought. The certification must also state, in the case of information sought under 50-16-811(1)(b), (1)(d), or (1)(e) or in a civil proceeding under 50-16-811(1)(h), that the requirements of subsection (1) of this section for notice have been met. Unless otherwise ordered by the court, the health care provider shall maintain a copy of the process and the written certification as a permanent part of the patient's health care information.

(3) In response to service of compulsory process or discovery requests, when authorized by law, a health care provider may deny access to the requested health care information. If access to requested health care information is denied by the health care provider, the health care provider shall submit to the court by affidavit or other reasonable means an explanation of why the health care provider believes that the information should be protected from disclosure.

(4) When access to health care information is denied, the court may order disclosure of health care information, with or without restrictions as to its use, as the court considers necessary. In deciding whether to order disclosure, the court shall consider the explanation submitted by the health care provider and any arguments presented by interested parties.

(5) A health care provider required to disclose health care information pursuant to compulsory process may charge a reasonable fee, not to exceed the fee provided for in 50-16-816, and may deny examination or copying of the information until the fee is paid.

(6) Production of health care information under 50-16-811 and this section does not in itself constitute a waiver of any privilege, objection, or defense existing under other law or rule of evidence or procedure.

History: En. Sec. 21, Ch. 396, L. 2003.

50-16-813 through 50-16-815 reserved.

A reasonable fee may include an administrative fee that may not exceed \$15 for searching and handling recorded health care information.

History: En. Sec. 22, Ch. 396, L. 2003.

50-16-817. Civil remedies. (1) A person aggrieved by a violation of this part may maintain an action for relief as provided in this section.

(2) The court may order the health care provider or other person to comply with this part and may order any other appropriate relief.

(3) A disciplinary or punitive action may not be taken against a health care provider or the provider's employee or agent who brings evidence of a violation of this part to the attention of the patient or an appropriate authority.

(4) If the court determines that there is a violation of this part, the aggrieved person is entitled to recover damages for pecuniary losses sustained as a result of the violation and, in addition, if the violation results from willful or grossly negligent conduct, the aggrieved person may recover not in excess of \$5,000, exclusive of any pecuniary loss.

(2) When a health care provider orders an HIV-related test, the provider also certifies that informed consent has been received prior to ordering an HIV-related test.

(3) Before the subject of the test gives informed consent, the health care provider ordering the test or the provider's designee shall give pretest counseling to:

- (a) the subject;
- (b) the subject's legal guardian;

(5) The subject of an HIV-related test or any of the subject's representatives authorized by subsection (1) to act in the subject's stead shall designate, after giving informed consent, a health care provider to receive the results of an HIV-related test. The designated health care provider shall inform the subject or the subject's representative of the results in person.

If informed consent cannot be obtained, the health care facility, in accordance with the infectious disease exposure guidelines of the health care facility, may, without the consent of the patient, conduct the test on previously drawn blood or previously collected bodily fluids to determine if the patient is in fact infected. A health care facility is not required to perform a test authorized in this subsection.
